

1. Open the Windows Defender Security Center on your laptop or desktop and take a screenshot showing the status of Virus & Threat Protection, Firewall & Network Protection, and App & Browser Control.

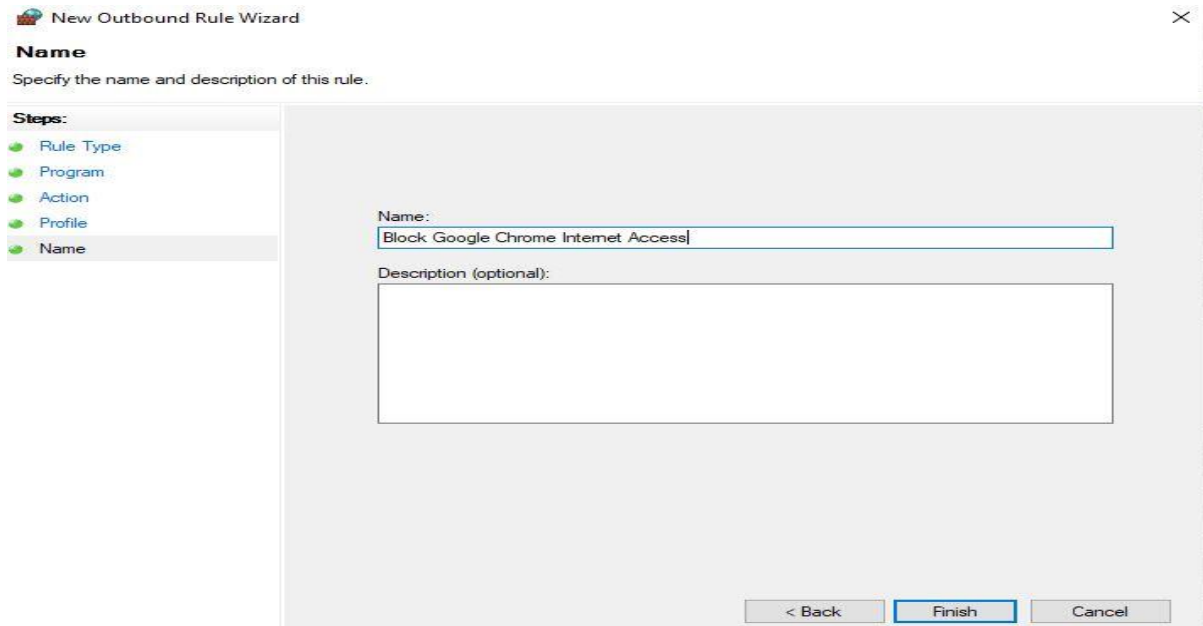

2. Create a new user account on your Windows system and set a strong password that meets at least 3 out of 4 complexity requirements (uppercase, lowercase, number, special character).

3. Disable file sharing for the Public folder in Windows and verify that it is no longer accessible from another device on the same network.

4. **Configure the Windows Firewall to block all incoming connections for a specific app of your choice (for example, Spotify or Chrome) and test that the app cannot access the internet.**

New Outbound Rule Wizard

Name

Specify the name and description of this rule.

Steps:

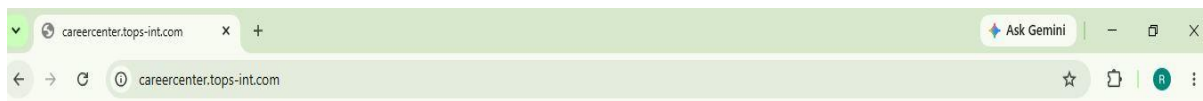

- Rule Type
- Program
- Action
- Profile
- Name**

Name:

Block Google Chrome Internet Access

Description (optional):

< Back Finish Cancel

Your Internet access is blocked

Firewall or antivirus software may have blocked the connection.

Try:

- Checking the connection
- [Checking firewall and antivirus configurations](#)
- [Running Windows Network Diagnostics](#)

ERR_NETWORK_ACCESS_DENIED
